

## ABOUT ME

- Experienced Front-End developer with knowledge in creating SPA using React, Redux/Redux Toolkit, TypeScript.
- Improving my skills and trying to follow the latest and most effective technologies.
- Planing to study React Native, because my next focus is to become a mobile developer.
- Considering options such as remote work and moving to another country.

**Glad to receive your suggestions!**

# KARPUK EGOR

## FRONT-END DEVELOPER

### MY LINKS

- ☎ [8 029 389 85 16](tel:80293898516)
- ✉ [karpukea@yandex.ru](mailto:karpukea@yandex.ru)

- Typescript
- TDD / Unit tests
- Rest API
- HTML5 / CSS3
- Storybook
- Postman
- Material UI / Ant Design
- Axios
- Jest
- Git / Github

### LANGUAGES

- Russian (native)
- English (B1 in progress)

## WORK EXPERIENCE

Feb 2022  
Present

### FRONT-END DEVELOPER PART-TIME JOB

- Creating new components (login form, registration form, reusable components);
- Refactoring existing code: transfer from class to functional, TS implementation, rewriting to new syntax (rrd v5 to v6, redux to redux toolkit, etc);
- Project architectural solutions (layering UI, BLL, DAL);
- Proper BLL state management;
- Working with the server using Axios;
- Writing tests for almost all main points;
- Minor performance improvements (memo, useCallback, useMemo)

### MY PROJECTS

- **Cards app** - learning app in team work.  
Technologies: TS, React, Redux Toolkit, React hook form, Yup, React Router Dom, Axios, Material UI, Git.
- **Todolist** - todo app.  
Technologies: TS, React, Redux Toolkit, React hook form, React Router Dom, Axios.
- **Social Network** - written on class components.  
Technologies: TS, React, Redux, Redux-thunk, Redux form, React Router Dom, Axios, AntD.

2017  
2022
